PROFILE

Senior .NET consultant with 15+ years of experience designing, developing and maintaining business software, web and desktop applications. Strong expertise in C#, .NET / .NET Core, SQL Server and PostgreSQL, with hands-on experience in N-Tier, microservices, DDD and Clean Architecture. Experienced in requirements analysis, technical design, team support and software quality practices including SOLID, TDD and Clean Code.

CORE SKILLS

Backend & APIs : C#, .NET Framework, .NET Core, ASP.NET MVC, ASP.NET Core, Web API, WCF, Windows Services, Worker Services
Frontend : Angular, React, TypeScript, JavaScript, HTML5, CSS3, jQuery, Bootstrap, WPF, Windows Forms
Data & messaging : SQL Server, PostgreSQL, T-SQL, Entity Framework / Core, Dapper, SSIS, SSRS, RabbitMQ, Azure Service Bus, MassTransit
Architecture & quality : N-Tier, microservices, DDD, Hexagonal Architecture, Clean Architecture, SOLID, design patterns, TDD, unit testing
DevOps & ways of working : Git, Azure DevOps, GitLab CI/CD, Jenkins, TFS / VSTS, Agile, Scrum, UML, Clean Code

PROFESSIONAL EXPERIENCE

Oct 2025 – 2026 | Senior .NET Consultant — Altec-Consulting | Sebia project (Phoresis)
Analyzed, maintained and enhanced an application processing data collected from laboratory instruments. Developed Windows Services to integrate external tools and improved the existing system while minimizing regressions.
Technology stack: .NET 10, C#, Worker Services, VB6, PostgreSQL, Azure DevOps, unit testing

Jan 2023 – Aug 2025 | Senior .NET Consultant — Beenext | Services Transport, Entoria, ADP
Worked on a billing solution and monitoring dashboards. Contributed to application modernization, microservices architecture, API development and CI/CD pipeline implementation.
Technology stack: .NET 7/8, C#, Web API, React, TypeScript, Angular, SQL Server, Entity Framework, PostgreSQL, RabbitMQ, Azure Service Bus, GitLab CI/CD

Sep 2020 – Dec 2022 | Technical Leader .NET — Inetum | Amadeus, Radio France, CNAV
Analyzed specifications, created user stories, managed tasks and contributed to development. Delivered unit tests and technical documentation, and helped prepare releases for desktop and web applications.
Technology stack: .NET Framework, C#, WPF, Windows Forms, Web API, SQL Server, Power Platform, Jenkins, Git, Scrum

Sep 2018 – Aug 2020 | Senior .NET Consultant — Oceanec Consulting | Recruitment & flight-search projects
Designed web microservices architectures, modeled databases with UML, developed features, implemented TDD and CI/CD, reviewed code and provided technical guidance to the team.
Technology stack: .NET Core, C#, ASP.NET Core, Web API, Angular, TypeScript, SQL Server, Entity Framework Core, Azure DevOps

Aug 2017 – Aug 2018 | Senior .NET Consultant — Clear Channel
Maintained and enhanced the Play, BroadCast and CIRCE applications. Developed unit tests and technical/functional API documentation.
Technology stack: .NET Framework 4.7.2, C#, ASP.NET MVC 5, Web API 2, WPF, WCF, SQL Server, Entity Framework

May 2016 – Jul 2017 | Lead .NET Developer — PJMS / Solocal Marketing Services
Contributed to N-Tier web architecture, developed business modules, introduced TDD practices, supported deployments across environments and coordinated development tasks.
Technology stack: .NET Framework 4.7, C#, ASP.NET MVC 5, SQL Server, Entity Framework, Dapper, JavaScript, Bootstrap, Azure DevOps

Apr 2012 – May 2015 | .NET Software Engineer — JOUVE
Developed and maintained application modules and a web portal. Integrated RSS feeds and web services, unit tests and continuous integration.
Technology stack: .NET Framework 4.5, C#, ASP.NET MVC, WCF, SQL Server, MongoDB, JavaScript, jQuery, Jenkins

Aug 2009 – Mar 2012 | .NET Analyst Developer — Helion Capital
Designed and developed payroll management applications, an ERP system and desktop business solutions.
Technology stack: .NET Framework 3.5/4.0, C#, WinForms, WPF, ASP.NET MVC, SQL Server

EDUCATION & TRAINING

2009 | Master’s-level degree in Computer Science — Software Engineering, Faculty of Sciences, Tunisia (Bac+4)
2021 | .NET 5 and ReactJS training through a personal project (3 months)
2020 | Microsoft Power Platform Developer PL-400; Power Platform Functional Consultant PL-200; Web API / Angular 8 training
2018–2012 | ASP.NET Core 2 / Angular 6, ASP.NET MVC 3 and Oracle 10g training
